**FRED FUNK:** Just thought I would let everyone know what is happening with **Fred**. Last Friday afternoon, he was trimming a palm tree and received a small cut on his leg. Twelve hours later, he was in the ER with the Vibrio bacteria. This is bacteria that is found in warm coastal areas such as the Gulf of Mexico or salt water creeks - the warmer the water, the higher the bacteria level. We think he got the bacteria when he was checking on his crab pots that we have off the back of our dock. He has a bad infection in his left leg and had surgery on Wednesday morning to remove all the dead tissue. As of right now, he is still receiving IV antibiotics hoping to kill the infection. His spirits are okay, but he may be in the hospital for several more days. At this time, no visitors please. Thanks for all the prayers, **Joy**

**MOVIE** for Wednesday, July 20th will be, **I Saw the Light**, the story of the country-western singer, Hank Williams, who in his brief life created one of the greatest bodies of work in American music. The film chronicles his rise to fame and its tragic effect on his health and personal life. Movie at 7:30 PM. -- **Patricia Murphy'**
