

Cribbage Monday 7pm

(Sign-up no longer required)

Playing cribbage on Monday evenings at KGC no longer requires signing up. Simply show up about 6:45 pm.

The first four showing up will comprise table 1

The second four showing up will comprise table 2....etc.

OR

If three extra players show up, one table will play a half game (60 points) of three-handed cribbage and the scores of all three will be doubled at completion.

OR

If two extra players show up, one table will play a half game (60 points) of two-handed cribbage and the scores of both will be doubled at completion.

OR

If one extra person shows up, the last person showing up will sit out the first game and receive a score of 121 points for sitting out. At the completion of the game at the highest numbered table, the winner drawing the low card will replace the player sitting out and the player sitting out will join the winning high player starting at table 1.

The half games for two and three players are to compensate for lack of points by partners and should keep all tables finishing in about the same time period.

This method relieves the organizer of making many calls to ensure we have a number of players evenly divisible by four and also adapts when a player who has planned to play is suddenly ill or unavailable.

This should be a fair and equitable way to permit anyone to run the game without a large investment of time.
